INTRODUCTION

Priority One National, Inc was formed with a purpose. That purpose is to serve our customers with a positive restoration experience second to none. You are Priority One! Since 2003 our company President Jeremy Toubl has been helping business owners and property management companies with their roofing and restoration projects. As the demand for a trusted contractor grew, Toubl bought and built companies to specialize in each area. For large restoration and renovation projects, Priority One National is the company for the job.

As a national conglomerate, with multiple regional headquarters, we have the necessary resources to properly handle large-loss insurance claims. Our management team has overseen \$300,000,000+ in hail and wind restoration projects throughout the country. We have the manpower to manage and complete projects in a very timely fashion, utilizing years of knowledge to create a quality experience for the customer. We work with all major insurance companies and have extensive knowledge in the claim settlement process.

Our goal is to provide the highest level of service, quality and professionalism. We use top name brand materials and certified installers. This allows us to place special manufacturer-backed warranties on our roofing projects, giving our customers true peace of mind for the life of their materials.

If large hail or high winds damage your community, one call truly does it all....

What our customers are saying:

“.... maybe the best thing about them is their project management...” Dick Hanzel, Multiple Apartment Complexes and Hotels - Wisconsin and Colorado

“.... Great job... please make sure people call me for a reference....” Charles Lalonde, President of Prestonwood Homeowners Association - Plano, TX

“Any time we have a large storm damaged property the first person I call is Jeremy Toubl. He has the resources and knowledge to handle multi-million-dollar projects with ease...” Jason Beadnell, Owner, Hunter Exteriors - Charlotte, NC

We are certified by some of the best material manufacturers in the industry.

This allows us to offer the best warranty available.

We use only high quality materials when providing work to your home or property for all projects performed.
